Catherine Henley, Ph.D.

EDUCATION

Ph.D., University of Washington, Epidemiology, 2022
M.P.H., University of Washington, Epidemiology, 2010
B.A., George Washington University, International Affairs, 2006

OVERVIEW

Dr. Henley is a Senior Research Analyst at PRG. She oversees the design and execution of PRG's public health impact and implementation studies, including development of evaluation and analysis plans, construction of data collection instruments, data management and analysis, and dissemination of findings to partners and funders. Her research interests focus on the quantitative and qualitative assessment of sexual and reproductive health programs and interventions that aim to support the health and wellness of young adults and underserved populations who disproportionately experience the burden of disease. She has co-authored articles in peer-reviewed publications such as *Prevention Science*, *Contraception*, *Journal of School Health*, *Journal of the Association of Nurses in AIDS Care*, *BMC Health Services Research*, and *Sexually Transmitted Diseases*.

PROFESSIONAL EXPERIENCE

2022 – Present Senior Research Analyst, *The Policy & Research Group*, Kensington, NH
2017 – 2022 Lead Research Analyst, *The Policy & Research Group*, Kensington, NH
2015 – 2017 Clinical Instructor of Global Health, *University of Washington*, Seattle, WA
2016 – 2017 Associate Director of Mozambique Program, *Health Alliance International at the University of Washington*, Seattle, WA
2015 – 2016 Program Manager of Mozambique Program, *Health Alliance International at the University of Washington*, Seattle, WA
2011 – 2014 Research Analyst, *The Policy & Research Group*, New Orleans, LA
2009 – 2010 Pre-doctoral Trainee Fellow, *University of Washington*, Seattle, WA

PROJECT EXPERIENCE

Teen Pregnancy Prevention Program, 2023-2028, Center for Supportive Schools, funded by U.S. Department of Health and Human Services, Office of Population Affairs. **Role:** Senior Research Analyst. **Duties:** Senior analyst for a randomized controlled trial of a group-delivered school-based positive youth development peer mentoring intervention, with a target enrollment sample of 1,400 youth participants. Assists with the development of the study design, evaluation and analysis plans, and data collection instruments under the guidance of the co-PIs.

Teen Pregnancy Prevention Program, 2023-2028, Institute of Women & Ethnic Studies, funded by U.S. Department of Health and Human Services, Office of Population Affairs. Role: Senior Research Analyst. Duties: Senior analyst for a randomized controlled trial of a group-delivered entertainment education intervention, with a target enrollment sample of 1,850 youth participants. Collaborates with the research team to develop the study design, evaluation and analysis plans, and data collection instruments.

Teen Pregnancy Prevention Program, 2023-2028, Unstained, funded by U.S. Department of Health and Human Services, Office of Population Affairs. Role: Senior Research Analyst. Duties: Senior analyst for a randomized controlled trial of an individual-level entertainment education intervention, with a target enrollment sample of 1,500 youth participants. Collaborates with the research team to develop the study design, evaluation and analysis plans, and data collection instruments. Oversees the execution of the impact and implementation studies and monitors overall study design.

Teen Pregnancy Prevention Program, 2023-2028, Public Health Seattle King County, funded by U.S. Department of Health and Human Services, Office of Population Affairs. Role: Senior Research Analyst. Duties: Senior analyst for a randomized controlled trial of an individual-level in-person intervention, with a target enrollment sample of 650 youth participants. Collaborates with the research team to develop the study design, evaluation and analysis plans, and data collection instruments. Oversees the execution of the impact and implementation studies and monitors overall study design.

Teen Pregnancy Prevention Program, 2023-2028, Theory and Innovation Support Hub, funded by U.S. Department of Health and Human Services, Office of Population Affairs. Role: Senior Research Analyst. Duties: Senior analyst for an accelerator innovation hub supporting multiple cohorts of innovation development teams with existing prototypes that demonstrate feasibility, appropriateness, and desirability to rigorously test, refine, and prepare for future impact evaluations.

Teen Pregnancy Prevention Personal Responsibility Education Program, 2021-2026, Young United Parents!, funded by U.S. Department of Health and Human Services, Administration for Children and Families. Role: Senior Research Analyst. Duties: Senior analyst for a randomized controlled trial of an innovative technology-based program designed to help young parents avoid unplanned pregnancy and sexually transmitted infections, with a target enrollment of 1,400 parenting females ages 15 to 20 across the U.S. Collaborates with the research team to develop the study design, evaluation and analysis plans, and data collection instruments. Oversees the execution of the impact and implementation studies and monitors overall study design. Manages datasets and conducts data analysis using Stata. Conducts regular data monitoring and data quality checks.

Teen Pregnancy Prevention Program, 2020-2024, Boston Children's Hospital, funded by the U.S. Department of Health and Human Services, Office of Population Affairs. Role: Senior Research Analyst. Duties: Senior analyst for a randomized controlled trial of mobile health app intervention for at-risk adolescent and young adult women with depressive symptoms. PRG partnered with multiple Planned Parenthood affiliates to recruit and enroll 405 16- to 21-year-old women into the study. Collaborates with the research team to develop the evaluation and analysis plans and data collection instruments. Oversees the execution of the impact and implementation studies and monitors overall study design. Manages datasets and conducts data analysis using Stata. Conducts regular data monitoring and data quality checks.

Perinatal Quality Collaborative Provider Survey, 2023, Louisiana Department of Health, Bureau of Family Health, funded by the Louisiana Department of Health. Role: Senior Research Analyst. Duties: Senior analyst for a project examining Louisiana provider views on opioid use disorder treatment methods. Oversaw development of the survey instrument and preparation of the final tabulation of responses.

Assessment of Factors Related to Syphilis Cases, 2022-2023, Louisiana Department of Health, Office of Public Health, STD/HIV/Hepatitis Program. Role: Senior Research Analyst. Duties: Senior analyst for a qualitative assessment of factors contributing to rising syphilis cases in Louisiana. Oversees development of the research plan and data collection instruments, qualitative data analysis, and reporting.

Teen Pregnancy Prevention Personal Responsibility Education Program, 2016-2021, e-Practice Self-Regulation, funded by U.S. Department of Health and Human Services, Administration for Children and Families. Role: Lead Research Analyst. Duties: Lead analyst for the first two years of a randomized controlled trial of an innovative therapeutic intervention for adolescents in the juvenile justice system, with a total enrollment of 631 youth across 15 probation sites in New Mexico and West Virginia. Collaborated with the research team to develop the evaluation and analysis plans and data collection instruments. Oversaw the execution of the impact and implementation studies and monitored overall study design. Managed datasets and conducted preliminary data analysis using Stata. Conducted regular data monitoring and data quality checks. Assisted Research Analyst to finalize implementation logistics at each study site

Teen Pregnancy Prevention Program, 2015-2021, Center for Supportive Schools, funded by U.S. Department of Health and Human Services, Office of Adolescent Health. Role: Lead Research Analyst. Duties: Lead analyst for a randomized controlled trial of a school-based peer mentoring program for 9th graders, with a total sample of 1,523 students across 18 schools in rural North Carolina and New York City. Oversaw the execution of the impact and implementation studies and monitored overall study design. Collaborated with the research team to develop the evaluation and analysis plans and data collection instruments. Managed datasets and conducted data analysis using Stata. Conducted regular data monitoring and data quality checks. Assisted Research Analyst to finalize implementation logistics at each study site. Prepared evaluation reports.

Teen Pregnancy Prevention Program, 2015-2021, Practice Self-Regulation (PS-R), funded by U.S. Department of Health and Human Services, Office of Adolescent Health. Role: Lead Research Analyst. Duties: Lead analyst for a randomized controlled trial of a trauma-informed therapeutic education program, PS-R, with a total sample of 432 adolescents across therapy sites in California, Louisiana, Maine, Michigan, and New Mexico. Oversaw the execution of the impact and implementation studies and monitored overall study design. Collaborated with the research team to develop the evaluation and analysis plans and data collection instruments. Managed datasets and conducted preliminary data analysis using Stata. Conducted regular data monitoring and data quality checks. Assisted Research Analyst to finalize implementation logistics at each study site. Oversaw supplemental qualitative study of therapeutic practitioners' perceptions of PS-R, including development of interview protocols and qualitative data collection and analysis. Prepared evaluation reports. <https://opa.hhs.gov/grant-programs/teen-pregnancy-prevention-program/tpp-successful-strategies/policy-and-research>

Teen Pregnancy Prevention Program, 2015-2021, Plan A, funded by U.S. Department of Health and Human Services, Office of Adolescent Health. Role: Lead Research Analyst. Duties: Lead analyst for a randomized controlled trial of a short video intervention, Plan A, with a total sample of 1,770 18- and 19-year-old Latina and African American women across 8 reproductive health clinics in

California. Oversaw the execution of the impact and implementation studies and monitored overall study design. Collaborated with the research team to develop the evaluation and analysis plans and data collection instruments. Managed datasets and conducted data analysis using Stata. Conducted regular data monitoring and data quality checks. Assisted Research Analyst to finalize implementation logistics at each study site. Prepared evaluation reports. Presented research findings at national conferences and published results in a peer-reviewed journal.

Teen Pregnancy Prevention Program, 2019, Empowered Decision Making, funded by U.S. Department of Health and Human Services, Office of Adolescent Health. Role: Lead Research Analyst. Duties: Lead analyst for a qualitative study involving in-depth semi-structured interviews with 40 young women who participated in the Plan A study. Oversaw development of data collection protocols. Oversaw qualitative data collection, data analysis, and reporting.

Vulnerability Assessment, 2018-2019, Louisiana Department of Health, Office of Public Health, STD/HIV/Hepatitis Program, funded by U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Role: Lead Research Analyst. Duties: Oversaw a jurisdiction-level vulnerability assessment that identified sub-regional areas in Louisiana at high risk for opioid overdoses and bloodborne infection. Developed a vulnerability index using statistical modeling. Identified data sources and entered into data sharing agreements. Prepared final report.

Mozambique Program, 2015-2017, Health Alliance International at the University of Washington. Role: Associate Director. Duties: Oversaw grants from private and public funding agencies, including the National Institutes of Health and the United States Agency for International Development. Ensured timely preparation of agreement materials, progress reports, work plans, and donor budgets. Identified new funding opportunities and led the development of program and research proposals. Provided on-site technical assistance and management support to field staff in Mozambique. Led successful proposal development for two projects that were awarded over \$1 million in funding. Directed curriculum development for a three-day course on routine data use for impact evaluations and taught course to Ministry of Health officials in Mozambique. Supported data collection, management, and analysis for a prospective cohort study on HIV care retention and adherence in HIV-positive pregnant women.

Targeted Capacity Expansion Program: Substance Abuse Treatment for Racial/Ethnic Minority Populations at High-Risk for HIV/AIDS, 2012-2017, South Texas Substance Abuse Recovery Services, funded by U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration. Role: Research Analyst. Duties: Analyst for an outcome and implementation evaluation of a program providing substance use treatment, case management, HIV testing and prevention training, Hepatitis B/C testing, and referral to medical care to individuals in South Texas. Collaborated with the research team to design the evaluation plan and data collection instruments. Provided data collection training and technical assistance to program staff. Entered, analyzed, and supported the interpretation of quantitative program data. Prepared annual evaluation reports.

The Care and Prevention in the United States Demonstration Project: Addressing Louisiana Inequities in HIV and AIDS, 2012-2016, Louisiana Department of Health, Office of Public Health, STD/HIV/Hepatitis Program, funded by U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Role: Research Analyst. Duties: Analyst for an impact evaluation of six strategies that aimed to significantly impact HIV inequities and health disparities among racial and ethnic minority populations in Louisiana. Collaborated with implementation partners to collect data and documentation necessary to inform the design of project studies. Collaborated with the

research team to design project-related research studies. Facilitated the development of data collection procedures specific to each project-related research study. Cleaned, analyzed, and interpreted study data. Prepared evaluation reports.

Special Projects of National Significance: Systems Linkages and Access to Care for Populations at High Risk of HIV Infection Initiative, 2011-2016, Louisiana Department of Health, Office of Public Health, STD/HIV/Hepatitis Program, funded by U.S. Department of Health and Human Services, Health Resources and Services Administration. Role: Research Analyst. Duties: Analyst for an impact evaluation of a program that aimed to institute linkages between the healthcare and correctional systems to serve populations at high risk of HIV infection. Collaborated with implementation partners to collect data and documentation necessary to inform the design of project studies. Developed theoretical briefs based on extensive literature reviews to inform development and implementation of project interventions. Collaborated with the research team to design project studies. Facilitated development of data collection procedures specific to each study. Cleaned, analyzed, and interpreted study data. Prepared evaluation reports.

Cooperative Agreement to Benefit Homeless Individuals, 2011-2014, UNITY of Greater New Orleans, funded by U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration. Role: Research Analyst. Duties: Analyst for an outcome and implementation evaluation of a program providing permanent supportive housing services, substance use treatment, and recovery support services to chronically homeless individuals and families in New Orleans. Collaborated with the research team to design the evaluation plan and data collection instruments. Provided data collection training and technical assistance to program staff. Entered, analyzed, and supported the interpretation of quantitative program data. Drafted annual evaluation reports.

21st Century Community Learning Centers, 2011-2014, Big Buddy Program, funded by Louisiana Department of Education. Role: Research Analyst. Duties: Analyst for an ongoing outcome evaluation on an out-of-school program offering mentoring, tutoring, after-school programming, leadership training, athletic activities, summer enrichment, weekend activities, and targeted truancy programs. Collaborated with the research team to design evaluation plans and data collection instruments. Organized and oversaw questionnaire administration with students, teachers, and program stakeholders. Conducted focus groups and key informant interviews. Entered, analyzed, and supported interpretation of quantitative program data. Drafted annual evaluation reports and special topic memos.

Needs Assessment of People Living With HIV/AIDS, 2011, 2013, Louisiana Department of Health, Office of Public Health, STD/HIV/Hepatitis Program, funded by Louisiana Office of Public Health. Role: Research Analyst. Duties: Oversaw two statewide needs assessments that collected data from over 2,000 Louisiana residents living with HIV/AIDS across 24 service sites. Developed and revised data collection instruments. Oversaw the work of research interns supporting data collection and entry. Cleaned, analyzed, and interpreted questionnaire data. Prepared regional and statewide reports that provided descriptive accounts of the needs of Louisiana residents living with HIV.

Assertive Adolescent and Family Treatment, 2010-2013, Odyssey House Louisiana, funded by U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration. Role: Research Analyst. Duties: Project manager for an outcome and implementation evaluation of a substance abuse program for adolescents ages 12 to 17. Provided data collection training and technical assistance to program staff. Entered, analyzed, and supported the interpretation of quantitative program data. Drafted annual evaluation reports.

Women's Health Program: Cameroon, 2009-2010, University of Washington. Role: Pre-doctoral Trainee Fellow. Duties: Created and managed database for Women's Health Program in Cameroon. Designed data collection instruments, analyzed administrative datasets, and prepared analytic reports. Developed database for human papillomavirus vaccination pilot project in Cameroon and trained 30 Cameroonian program staff in data collection and management.
